Multiply a fraction in a story

I can... model repeated groups of a fraction.

Each badge uses 2/3 meter of ribbon. Make 4 badges.

2/3 + 2/3 + 2/3 + 2/3

4 × 2/3 = 8 × 1/3 = 8/3

2 2/3 meters of ribbon

Four groups of two thirds contain eight thirds. The denominator continues to name thirds.
