Add decimals to thousandths in context

I can… add decimal measurements by combining like units.

Two lengths are 1.275 m and 0.438 m.

Ones	Tenths	Hundredths	Thousandths
1	2	7	5
0	4	3	8

5 + 8 = 13 thousandths → 1 hundredth + 3 thousandths.
7 + 3 + 1 = 11 hundredths → 1 tenth + 1 hundredth.

1.275 + 0.438 = 1.713 m

1.3 + 0.4 ≈ 1.7 m

The exact sum is close to the estimate.
