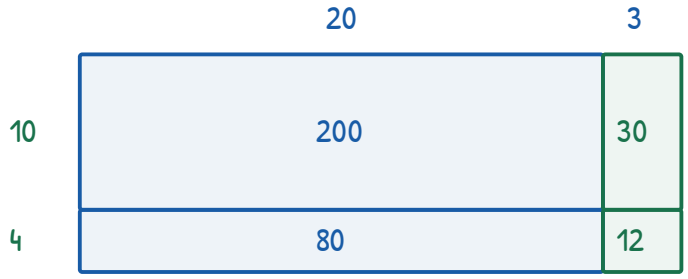
Break apart factors to multiply

I can... use an area model and partial products to multiply.

Break 23 into 20 + 3

23 × 14 = (20 + 3) × (10 + 4)



Keep every partial product

200 + 80 + 30 + 12 = 322

Each rectangle is one part of the full area. All four parts must be counted.
