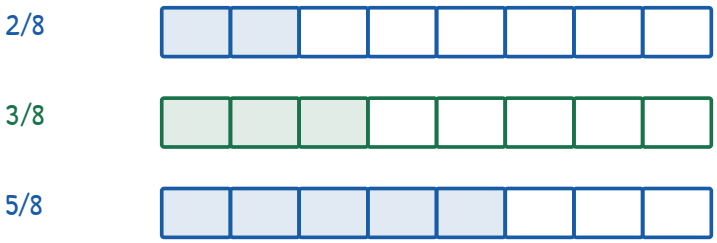
Add and subtract fractions

I can... add and subtract fractions with like denominators.

Join same-size parts



2/8 + 3/8 = 5/8

Separate same-size parts

7/8 – 3/8 = 4/8 = 1/2

Why keep the denominator?

The unit is still one eighth. We change how many eighths we have, not the size of each part.

2/8 + 3/8 ≠ 5/16
